Now it has been . We aim to cover all currently available information regarding the Solidlink 2012 R1 software. I don't know what that means? Bibliographical References: Program files are contained in a directory named \Program Files. Edgecam 2012 R1 Cls.exe. Download. . Solidlink is a product of Alphacam Systems. I didn't buy anything from the company. I have had issues with both of their software programs. Solidlink 2012. SolidLink.exe; AcamFile75.dll (by Licom Systems Ltd) - Alphacam (Apsfile DLL); base\_stream.dll (by Tech . I want to say thanks. I have been trying to get the last module to work. The Gui module works great. The last module (viewer) gives me the error "graphic library not present". I have searched the web and tried out a bunch of ways to get this to work. I have tried to do everything from reinstalling the registry and the graphic library to the deleting the whole Vistag6.txt file and then reinstalling. All of this to no avail. I also want to say that i have been using this computer for 2 weeks now and have only just started using it. Hope this helps out. Hi jacoblu96. I'll do my best to answer your questions in this short reply. What operating system are you using? Vista? XP? What operating system are you trying to install this program on? XP? Vista? What version of the viewer are you using? This usually means what version of Vistag6.txt do you have? You can find this by opening the viewlet, then looking at the file that is on the server in the viewlet's main folder. Are you trying to install this on the same computer that you have Vista and Vistag6.txt on? The graphic library that you are using is different than the graphic library that is included in Vistag6.txt. Usually you can find these

Manual removal requires the use of Windows OS-specific tools.. Run the setup of Edgecam manually from the command line. Manual guidance for the use of Edgecam 2012.09.
