Tecplot focus is one of the powerful tools for science, engineering and business application of 3D modeling. The plot window is the integrated 3D browser and workspace for interactive 3D graphics. It is a multi-window facility that can be used in combination with other Tecplot tools. The plot window has its own preferences and tools that can be configured. Many plot window tools are integrated into the world window. The world window is an interactive 3D viewer with a 3D map and navigation controls. With Tecplot Focus your 3D scene can be displayed in various layouts, projected or displayed as wire frame, free form, solids, surfaces, or mesh. You can view and edit the scenes in the plot window, the world window, or both. Tecplot Focus 7.0.1-1 Full Version for Windows (Latest)
