Q: How to get the last ID of an MSSQL Server table using SQL? I want to get the last ID of an MSSQL Server table that I'm using, how can I do this? I use this query: SELECT LAST\_INSERT\_ID() But the output is: 12:34:56.128 I want the last insert id of this table, but I'm using a 3rd party API and the 3rd party has these ID of my table. And I don't want to pass the last insert ID to the API. Is there any way to get the last insert id of an MSSQL Server table? A: Try this: select \* from table(dbname)+'.'+table\_name where last\_insert\_id>0 Please check this: SELECT LAST\_INSERT\_ID() in SqlServer Brown Eyes (disambiguation) Brown Eyes may refer to: Brown Eyes (1929 film), an American comedy film Brown Eyes (1930 film), a Spanish comedy film Brown Eyes (1931 film), a British drama film Brown Eyes (1932 film), an American drama film Brown Eyes (1938 film), a German comedy film Brown Eyes (1945 film), a German comedy film "Brown Eyes", a 1957 song by Lesley Gore Brown Eyes (1964 song), a song by the Action Brown Eyes (1980 song), a song by Sonia Brown Eyes (2014 song), a song by Joey Purp Brown Eyes (album), a 2015 album by Joey Purp See also Brown Eyed Girl (song), a 1972 song by Van Morrison and Them Brown Eyed Girl (disambiguation)Q: How to refresh with only ID not table row? I want to refresh table only with one id, this id is from get request, but other all table row refreshing by ajax, how to refresh just with one id? This is my ajax function \$("ajax").click(function() { var contact = \$("#contact\_" + \$(this).attr('id')).val();
