---

development of an industrial country. In the 16th century the Royal Council of the Netherlands organized the first ever apprenticeship scheme in the Netherlands. This scheme guaranteed proper training for managers and skilled craftsmen. As the world was moving towards more efficient and innovation-driven industries, it required an evolution in human

---

capital management. In 1824, the first institutionalized training in the United States began at the University of Pennsylvania. It was given to students in law, medicine, dentistry, engineering, and theology. The trend of advancing education was going in the same direction as the advancement of human capital. In 1867, the first business school began at the University of
